EXPERIENCE

Dec 2025 - Jul 2026	Web Developer
Alphaxite Technologies	- Developed responsive and mobile-friendly websites using HTML, CSS, JavaScript, Bootstrap, and Tailwind CSS. - Created user-friendly web pages based on business requirements and design specifications. - Developed website sections such as navigation bars, hero sections, service sections, cards, forms, testimonials, and footers. - Implemented responsive layouts for desktop, tablet, and mobile devices. - Used JavaScript to create interactive features, form validation, navigation functionality, and dynamic UI elements. - Identified and fixed UI, layout, responsiveness, and cross-browser compatibility issues. - Used Git and GitHub for source code management and project updates. - Tested websites on different screen sizes and browsers to ensure proper functionality. - Assisted in website deployment and maintenance. - Improved website usability, responsiveness, and overall user experience.

PROJECTS

E-Commerce Website | HTML, CSS, JavaScript, Tailwind CSS

- Developed a responsive e-commerce website with product listings, category filtering, search, and shopping cart functionality.
- Implemented dynamic cart operations, quantity updates, product removal, and total price calculation using JavaScript.
- Designed modern and responsive user interfaces using Tailwind CSS for desktop, tablet, and mobile devices.
- Added interactive UI components and focused on clean layout, usability, and responsive design.
- Implemented product detail sections and improved navigation for a smooth user experience.
- Optimized the interface for different screen sizes and ensured consistent performance across modern browsers.

Service Booking Web Application | HTML, CSS, JavaScript, Tailwind CSS, Node.js, MongoDB

- Developed a responsive service-booking web application with service listings, pricing, testimonials, contact, and booking sections.
- Created an interactive booking form with client-side validation using JavaScript.
- Used Node.js for basic backend functionality and handling booking-related data.
- Integrated MongoDB to store customer details and booking information.
- Connected the front-end with backend functionality for submitting and managing booking requests.
- Designed a mobile-first interface using Tailwind CSS with a focus on clean UI and responsive user experience.
